

The Daily Gazetteer.

NUMB. 2311

FRIDAY, NOVEMBER 19. 1742.

Yesterday arrived a Mail from Flanders.

Petersburgh, Oct. 18.

HE Swedes, it seems, have at last wisely resolved to throw all their Concerns into the Hands of Great Britain, and Sir Cyril Wych, the Resident from that Court at Moscow, will have the Honour of adjusting that Peace which is of so great Concernment to the North. Her Imperial Majesty made lately a very strong Compliment to the Hungarian Minister, upon his felicitating her on the Conquest of Finland. 'Your Excellency, return'd her Majesty, has Reason to be pleas'd with this Event as well as I, since it will, in all Probability, facilitate a Peace with Sweden; which once concluded, I shall be most ready to endeavour to the utmost of my Power, the rendering the Fortune of your Mistress equivalent to her Virtues.' By the Alliance lately concluded between our Court and that of Great Britain, the Balance of Power in the North is effectually settled, and the necessary Precautions taken to prevent its being affected either by the Power or the Arts of France.

Rome, Nov. 3. This Court is excessively uneasy at the present Posture of Affairs in Italy, where the Spaniards have ruined the Boulonois to such a degree, that the Inhabitants are utterly undone. They have applied here with the utmost Earnestness for some Assistance in their Distress, and there is no doubt to be made that his Holiness, who is the affectionate Parent of his People, would comply with their Desires, if proper Funds could be found. His most Catholick Majesty's Ministers have labour'd with inexpressible Diligence to quiet the Holy Father on the Subject of the long Stay of his Troops in the Ecclesiastical State; but as it is well known here that Compliments are all we shall ever receive from Madrid, and as this Coin is no longer current here, his Holiness is very far from dissembling his Resentment. We have just now an extraordinary Piece of News, which we wish may prove true; viz. That the Spanish Forces have at last received Orders to quit our Territories, and to take Winter-Quarters in the Duchy of Massa-Carrara; but the Advices we have from Bologna do not seem to give much Countenance to this Piece of Intelligence, and therefore we suspend our Belief for the present.

Vienna, Nov. 7. Our Court has been solicited from various Quarters to think of making a Separate Peace, but her Majesty on the late Negotiation at Paris declar'd her Mind fully on this Subject. She said, Her Affairs could never be in a worse Condition than when her Allies began to exert themselves in her Favour; and therefore she would never take advantage from her being in better Circumstances by their Means, to do any Thing either to their Prejudice, or without their Consent. The chief Cause of the Retreat of the French Army into Bavaria, was their being refused Winter-Quarters in Franconia; and by this Step the War is carried out of her Majesty's Dominions into those of her Enemies, where at all Events it must prove ruinous to them.

Dresden, Nov. 12. Count Esterhazy, who has been lately appointed Minister to this Court by the Queen of Hungary, arrived here on the 8th, taking Breslau in his Way hither. About Five the next Evening he had an Audience of the principal Ministers, which lasted till about Eight; and it was observed, that no Ambassador ever met with a better Reception, or seemed to have more Confidence placed in him than his Excellency. The French have lost the Elbe as well as the Moldau, and at their Retreat burnt all the Boats they could possibly lay their Hands on. Prague is now as closely block'd up as when the Siege was first rais'd; and this, considering the State the Place is in, must very speedily force it to surrender. The Magazines of Corn and Salt are very far from being full, and as for Fresh Provisions they will soon grow scarce again, tho' just before they abandon'd Leutmaritz, the French carried from thence a great Number of Black Cattle.

Berlin, Nov. 13. The Earl of Hynford is more solicitous about Affairs now on the Carpet than he has appear'd to be about any thing transacted since his coming hither. He confers assiduously with the Ministry, and goes oftner than usual to his Majesty. His Negotiations are generally understood to roll on the two following Subjects, viz. first, the Treaty now on foot between his Master and our Sovereign, for the Support of the House of Austria; and next, the settling the Money due to the Subscribers to the Loan on Silesia in the time of the late Emperor. It is confidently reported, that his Britannick

Majesty has demanded 6000 Prussians to march to join the Troops of the Allies now in the Low Countries; and tho' we do not positively know that our Court has agreed to this, yet there is good Reason to believe his Majesty will neglect nothing which may benefit the Common Cause, or tend to secure the Queen of Hungary's peaceable Possession of her Dominions, and the Expulsion of the French out of Germany; Points principally stipulated in the new Treaty.

Gravesend, Nov. 17. Pass'd by the Ann and Mary, Baker, and the Mary, Tunis, both from Dantzick.

LONDON.

The Mary, Crow, from Petersburg for London, was lately lost in the Gulph of Finland.

His Majesty was pleas'd to make the following Answer to the Lords Address presented to him on Wednesday last:

'My Lords,
'The Duty and Affection which you express in this Address, for my Person and Government, are accompanied with so great Zeal for the Common Cause, and the true Interest of my Kingdoms, as gives me the utmost Satisfaction. I thank you heartily for it; and doubt not but your vigorous Support, so early and unanimously given, will have the best Effects both at home and abroad.'

Yesterday the Hon. House of Commons waited on his Majesty with their Address of Thanks, for his most Gracious Speech.

To which Address his Majesty was pleas'd to return a most Gracious Answer.

The House of Commons have adjourn'd to Monday next.

A few Days ago died at Farningham in Kent, the Lady of Thomas Harker, Esq.

Yesterday Morning about 10 o'Clock Thomas Homan, the Baker's Apprentice, was executed at the End of Fetter-lane in Holbourn, for the Murder of Mrs. Dix, an ancient Widow Gentlewoman.

At the Gallows he seem'd very penitent, but so weak that he could not mount the Ladder without being supported.

At the Place of Execution several melancholy Accidents happen'd by the Fall of two Scaffolds slightly tack'd together the Night before to get Money from the Spectators; one Man had his Back dislocated, another had his Thigh broken, and a Boy his Skull fractur'd, &c.

Last Night the Corpse of Sir Stafford Fairborne, Knt. the oldest Admiral suppos'd in Europe, was (after lying in State in the Jerusalem Chamber) interred with great Solemnity in Westminster Abbey, close by the Remains of Sir Palmer Fairborne, Knight, formerly Governor of Tangier.

Borough of Southwark, Nov. 18. Whereas a Second Meeting was advertised in the Daily Post of Tuesday last, to be held at the King's Arms Tavern in the Borough of Southwark, on Wednesday following, at Six in the Evening, several of the Inhabitants, Electors of the said Borough, did then attend, in order to know, if possible, what was the Intention of such Meeting, and to see whether any one there would have had Assurance enough to own himself concerned in the Drawing up the late pretended Instructions, published in the Daily Post, London Evening Post, and Champion, on Saturday last; and whereas no such Person did then appear to justify those Proceedings; it is evident, that the Publication of the said Instructions was a base and scandalous Impostition upon the Publick.

An Infallible and Instant Cure

For DEAFNESS, THICKNESS of HEARING,
PAIN or NOISE in the EARS, &c. by the new
Chymical Specifick DROPS.

WHICH infinitely excel all other Me-

dicines ever offer'd to the Publick, or known in the World,
for they directly cure Deafness, be it ever so bad, and all Thick-
ness of Hearing and Noise in the Ears, almost at once, and
after all other Means have failed, and without Trouble, or the
least Uneasiness whatever, as many Thousands have experienc'd.

They effectually remove all Pain occasion'd by Cold, strengthen
the Tympanum or Drum of the Ear, free the auditory Nerve from
Obstruction, and remedy all Defects of the Hearing Faculty, al-
most in an Instant, causing those to hear exceeding quick and
well, who before were in a Manner totally Deaf.

Hundreds who were so very bad, as not able to hear a Word
when best close by them, and therefore despaired of being
ever relieved, have been quickly and perfectly cured by them,
to their great Joy and Admiration.

In a Word, nothing in Nature can come near them for the cure
and almost immediate Cure of DEAFNESS, proceeding from
what Cause soever; but the great Esteem and Reputation they have
justly gained for many Years past, have occasion'd (as usual in such
Cases) many Counterfeits to come abroad; beware therefore of
such Impostitions, these excellent and only true Specifick Drops be-
ing to be had only, by the Author's Appointment, of the Gentle-
women at the two Blue Posts in Haydon-Yard, in the Minors, at
3s. 6d. a Bottle, with Directions, and no where else in England.

ANTI-SYPHILICON

THE only short and most infallible

Cure in the Universe for the VENEREAL DUMEX,
from the lightest Infection to the most extreme and deplora-
ble Degree of it, even when the Blood and Juices are thor-
oughly contaminated with its malignant Virus, and the
Bones are affected with it.

Fresh Infections, call'd CLAPS, with all their attendant
Symptoms, tho' ever so severe, are entirely carried off by
it in a few Days, and so as effectually to prevent the Blood
and Juices from being tainted with any remaining Relics
on one Hand, or a seminal Gleet or Weakness to happen
on the other.

And the most inveterate Degree of the French Illness,
attended with Nocturnal Pains, universal Breaking out,
and all the other most exasperated Symptoms, are soon
overcome by it, and effectually and much more safely cured
than by Salivation, Inunction, or any other Method
whatever, and in so easy and pleasant a Manner, without im-
pairing Strength, or occasioning any Inconvenience, as to be
able to speak it the only apposite Remedy or true Venereal
Antidote in the World; and this some Thousands have to
their great Joy experienc'd.

It is pleasant to take, occasions no Sickness or Disorder,
nor requires Confinement; but may be taken, and the Cure
be accomplish'd, without the Knowledge of the nearest
Friend.

Those who suspect they have received an Injury, may,
by only a Dose or two of it, be perfectly freed from all
Apprehensions; for it suffers no lurking Venom to lie hid
in the Body, but wholly extirpates it Root and Branch, in
a gentle, easy, and most effectual Manner.

All such likewise as doubt they have some remaining
Relicks of former Injuries, may by a few Doses of it, entirely free
themselves from all Suspicion of that Kind; for it admits of
no Foulness, Corruption, or Putrefaction whatever, to re-
main in the Fluids, or to adhere to the Solids; and on that
Account, in all scorbutick, scrophulous, and even leprous
Eruptions or Foulnesses of the Skin, Glandulous Swellings
and Impurities of the Juices, it does more by one Dose,
than any other Medicine yet known can by ten.

The Price of this most Noble ANTI-SYPHILICON is but
Six Shillings a Pot, which, considering its extraordinary effi-
cacy, one Pot only being sufficient in most Cases to accom-
plish the Cure, is not a tenth Part of its Value; and is ap-
pointed by the Author to be had only at Mr. RADPOLE'S
Toyshop, at the Rose and Crown against St. Clement's
Church-Yard in the Strand, ready sealed up with a Book of
Instructions, by the Perusal of which, all Persons who were
ever affected with any Degree of the Venereal Disease, may
perfectly understand their own Condition, and certainly
know when, and when not, the Venereal Poison is entirely
rooted out of their Bodies.

Note, Ask only for a Six Shilling Pot for the Scurvy.
